## CHILL WINDS

Are the dread of those whose lungs are "weak." Some fortunate people can follow the summer as it goes southward, and escape the cold blasts of winter and the chill airs of spring. But for the majority of people this is impossible.

Family cares and business obligations hold them fast. "Weak" lungs are made strong by the use of Dr. Pierce's Golden Medical Discovery. It cures the obstinate cough, heals the inflamed tissues, stops the hemorrhage, and restores the lost flesh to the emaciated body.

"I am a railroad agent," writes I. B. Staples, Esq., of Harcley, Oage Co., Kans. "and four years ago my work keeping me in a warm room and stepping out frequently into the cold air gave me bronchitis, which became chronic and deep seated. Doctors failed to reach my case and advised me to try a higher air, but, fortunately for me, a friend also advised me to try Dr. Pierce's medicines. I commenced taking your 'Golden Medical Discovery,' and by the time I had taken the first bottle I was better, and after taking about four bottles my cough was entirely gone. I have found no necessity for seeking another climate."

Sometimes a dealer, tempted by the little more profit paid on the sale of less meritorious medicines, will offer the customer a substitute as being "just as good" as the "Discovery." You get the People's Common Sense Medical Adviser, the best medical work ever published, free by sending stamps, to pay expense of mailing only. Send 21 one-cent stamps for book in paper covers, or 31 stamps for cloth-bound volume, to Dr. R. V. Pierce, Buffalo, N. Y.

## THE SAME OLD STORY.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by Craig & Hocker, Druggists.

A fond mother sent her little son to Sunday school and when he returned she asked: "Were there many there?" "A good many," replied the boy, "but Jesus wasn't there." "How do you know?" "Because," said the boy "they sang, 'Jesus is calling today.'"

Frank Strickland, of Atlanta, poet, author and musician, says in an interview in the Journal of that city: "I am as thankful to God that He made me blind as I am thankful for the air I breathe or the water I drink."

After being chased and shot at for nearly four years, it will be a long time before our Filipino fellow-subjects can hear Fourth of July fire crackers without dodging.—Louisville Times.

JUDGE M. C. SAUFLEY,

Candidate for Circuit Judge. A distinguished Kentuckian, an able jurist and a democrat in whom there is no guile.

## Clarence Coleman Takes In Chautauqua.

LEXINGTON, July 4.—DEAR INTERIOR: I am spending the "Glorious Fourth" at Chautauqua and while waiting for the evening session, will pen a few lines to the I. J. This is the closing of the Kentucky Chautauqua and the banner day both in character and personnel and in point of attendance. This morning Hon. Samuel Gompers, of Washington, D. C., president of the American Federation of Labor, lectured on the labor problem. The principal feature of this afternoon was the address of Capt. Richmond Pearson Hobson, U. S. N., his subject being "The American Navy, its Traditions and Victories." Hobson, it will be remembered came into universal notice by his heroic deed of sinking the Merrimac in the mouth of Santiago harbor, thus preventing the escape of the Spanish fleet. He was then but a mere ensign, but has since been promoted, until now he wears the insignia of a captain in the navy. He has lately returned from the far East, where he successfully raised and superintended the reconstruction of three of Montenegro's fleet that were hurled to the bottom of the sea by Dewey in Manila bay. Fully 2,500 people heard and cheered the youthful Southerner and a general hand shake followed his speech. He was afterward banqueted by the Confederate veterans and daughters of the Confederacy.

Last fourth of July the writer spent in San Francisco. What a contrast to the one to-day. One year ago to-day we witnessed a grand military and naval and civic parade in San Francisco in which some 10,000 took part—most every one with overcoat on. In fact I came near freezing. The papers contained column after column of matter about the heat prostrations in the East. The heat today has been intense.

We paid the Democrat a short call yesterday, hoping to see Editor Walton, but was pained to learn of his illness from a fall of the day before. We met Mr. Saufley, who seems as much at home looking after the circulation interest of a city daily as when sticking type on the I. J. Will return to Burnside tonight. Success and best wishes to the I. J. and its myriads of readers. CLARENCE COLEMAN.

## A CURE FOR SUMMER COMPLAINT.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of every family. This is not intended as a free puff for the company, who do not advertise with us but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer time.—Lansing, Iowa, Journal. For sale by Craig & Hocker, Druggists.

Considerably over 400 columns of the Congressional Record are occupied with speeches on the Isthmian canal bill. Senator Morgan's eight speeches on the subject fill 172 columns. Senators Hanna and Mitchell coming next with 42 columns and two speeches. The shortest talk of the lot was one of a column by Senator Hawley.

## CHURCH MATTERS.

Georgia Baptists have four colleges for women.

The London district Sunday school convention will be held in Pineville Friday.

The Children's day offering in Christian churches last week amounted to \$7,869.80.

The Baptist Judson Memorial church, New York City, gets \$20,000 rent from its adjoining hotel property.

Rev. R. A. Kimble, formerly of Elizabethtown, has accepted a call to the Baptist church at Corbin.

Rev. J. D. Woodson, of Webster county, a member of the Legislature, was elected chaplain of the Eddyville penitentiary.

Father Gambon, of St. Patrick's church, to the surprise of every one, left a fortune of \$37,000. Of this amount \$8,000 was found in a safe at the rectory.

Cumberland Presbyterian women, in convention at Bowling Green, agreed to pay to the board of publication \$1,000 for 5,000 subscribers to the Cumberland Presbyterian.

An English minister says the great drawbacks to worship in American churches are, first, because they lack proper ventilation, and second, because the people do not know how to sing.

Rev. I. S. McElroy, of the Maxwell Street church, of Lexington, has moved to Richmond, Va., where he will take charge of the office of secretary to the Presbyterian ministerial relief fund.

Eld. J. L. Davis, the much abused preacher, has just closed a two weeks' meeting at the Purcell school house with 40 additions, 19 by baptism and 21 by letter and from other churches.—Kentucky Colonist.

Northern friends of the Kentucky Wesleyan College have offered to give \$75,000 to the endowment, if \$100,000 can be raised by the Kentucky friends in the next three years. This offer has already met with an encouraging response.

By the will of the late Mrs. Sarah Cronley, of Lexington, \$200 each is bequeathed to the Episcopal churches of Georgetown, Versailles and Beattyville, and \$100 each to the churches of Danville and Harrodsburg. The estate, valued at about \$60,000, is given largely to work of the Episcopal church.

"I am using a box of Chamberlain's Stomach & Liver Tablets and find them the best thing for my stomach I ever used," says T. W. Robinson, Justice of the Peace, Loomis, Mich. These Tablets not only correct disorders of the stomach but regulate the liver and bowels. They are easy to take and pleasant in effect. Price 25 cents per box. For sale by Craig & Hocker, Druggists.

The wife and daughter of Capt. Tiemann N. Horn, of the Seacoast Artillery, together with Mrs. Horn's sister, Miss Alice McMahon, were drowned by the capsizing of a sailboat in Sandy Hook Bay, N. Y. The capsizing of a boat in the Detroit river resulted in the drowning of four boys.

Cut this out and take it to Craig & Hocker's Drug Store and get a box of Chamberlain's Stomach & Liver Tablets. The best physicians treat disorders of the stomach. Price 25 cents.

The "Is it hot enough for you" man is very much in evidence just now.

The Lancaster boys played another match game of base ball on Saturday afternoon with a Williamsburg nine, and the score stood 8 to 9 in favor of the visiting team.

A full attendance of the members of the W. C. T. U. is requested for next Saturday afternoon in order to elect a president to fill the vacancy caused by the death of Mrs. Margaret Gill.

Another mad dog scare occurred here Saturday and County Attorney James I. Hamilton took a shot at the canine, but missed his aim. The dog escaped out into the country North of town.

Miss Amanda Anderson will teach the public school of the Poor Ridge section for the next month as a supply for Mrs. Dr. J. A. Amon, who has not recovered sufficiently to begin her duties.

Mayor Robert Kinnaird, President H. T. Logan, J. W. Elmore and John M. Farra visited Danville in behalf of Garrard's railroad interest and are far from hopeless in regard to better transportation for this section.

Contractor Ray, a Rhode Island engineer, has arrived in this city, after so long a time, and will begin the work of boring an artesian well. The matter was delayed because an Ohio company did not promptly ship the machinery.

Henry Ball, 37 years of age and a bachelor of this vicinity, died Friday of consumption and the interment took place in the Lancaster cemetery Saturday. He was a brother of Mesdames Erasmus Dunn and Ella Bettis, of Lexington.

The Ladies' Aid Society of the Christian church continues to augment its treasury, on Saturday, 28th, taking in \$5 at its weekly meeting and on the 5th collecting \$9. The women are arranging to run a week day excursion to Cincinnati to further add to their coffers.

Of Wayne County, is a candidate for State Treasurer, subject to the action of the Democratic party.

### TO THE DEMOCRACY OF THE 13th JUDICIAL DISTRICT.

I am a candidate for the democratic nomination for the judgeship of the 13th judicial district of Kentucky, composed of the counties of Boyle, Garrard, Lincoln and Mercer.

M. C. SAUFLEY.

THE printing business in the United States is of vast and growing importance. The census bureau has issued its report on printing and publishing in the United States for the census year 1900, showing a capital of \$292,515,072 invested in the 22,312 establishments reporting for the industry. This sum represents only the live capital utilized and the value of the land, building, tools, machinery and implements. The value of the products of the industry is returned at \$347,055,050, to produce which an outlay of \$36,000,719 for salaries of officials, clerks, etc., \$84,249,889 for wages, \$55,897,529 for miscellaneous expenses and \$86,856,290 for materials used, mill supplies, freight and fuel. The total number of wage earners in the industry has increased only 10 per cent. since 1890, but the value of products increased 24 per cent. Of the total value of products advertising formed 43 per cent., subscriptions and sales 36 per cent., and book and job printing, including miscellaneous products, 21 per cent. The total circulation per issue of dailies was enough to supply one for every five inhabitants, and weeklies and monthlies, one to every two inhabitants.

THE Chicago Chronicle, which keeps tabs on Fourth of July accidents, says of them: "With many cities to bear from the total dead outside of Chicago is 14 and the injured 1,542, while the loss of property by fire reached \$67,469. Including Chicago the list is 17 dead and 1,592 injured. The death list last year was 19, and the injured 1,611. Many of the injured died later, as the wounds caused by gunshot frequently do not become serious until some days after they are inflicted. The toy pistol and the cannon cracker, as usual, were responsible for the greater part of the injuries, but every variety of fireworks had its share in the deadly work." Some people have a foolish way of celebrating the natal day of independence, and as a result almost as many people are killed and wounded yearly as there were in the war that gained it.

WE are with the Buffalo Times when it says that there is plenty of splendid material in the democratic party from which to make selection, but there is no need for haste in the matter. It is practically settled that the republican candidate, barring death and other unforeseen disability, will be either Hanna or Roosevelt; there is no need of worrying over the identity of his opponent at this juncture. All the democratic party need do this fall is to get the various States into such condition that their candidate of 1904, who ever he may be, will receive the full and undivided vote of the party. In that way and in no other will his election be assured.

DURING the fiscal year which has just closed, the receipts of the government have exceeded the expenditures, large as they have been, by nearly \$90,000,000. This is due in part to a decrease of \$37,000,000 in the expenditures. Those on account of the army have been cut down materially. A portion of the credit for the surplus is due to the prosperity of the country, which makes the taxes so productive. The last Congress took off part of the war taxes and guessed that the revenues would be decreased about \$40,000,000. They fell off only about \$20,000,000.

THE president's speech at Pittsburg is said to have sounded the keynote to the trust control theme that will predominate in his speeches during the Summer. Representative Littlefield has been asked to prepare a bill for the regulation and control of the trusts, to be submitted to Congress with the endorsement of Mr. Roosevelt.

CONGRESS sought to put a premium on deserters as follows: By the passage of a bill on the last day of the recent session of Congress the sum of \$3,000,000 will be distributed in North Carolina and Tennessee as pensions to Confederate veterans who deserted their army to fight with the Union forces.

THIS is indeed a great country. While the mercury registered anywhere from 90 to 100 Saturday, snow flakes were falling in Colorado and Wyoming.

THE Georgia democrats also refused to mention the Kansas City platform at their convention. It seems to be the determination of democrats to forget those things which are behind and reaching forth unto those things which are before, press toward the mark for the prize.

THE republicans are making life miserable for J. A. Craft, who joined their ranks not long since. Ed Parker went after him good and strong and now Col. Dave Colson in a letter to the civil service commission prefers charges against him.

THE bill providing for the election of United States Senators by the people, though passed unanimously by the house, is neglected by the Senate. The man who opposes it in that body should be marked and never be allowed to return to it.

WHEN union men stop a funeral procession and make non-union drivers dismount, as at San Francisco yesterday, it looks like carrying the union business a little too far and making it nauseating.

ELEVEN murders and six suicides in Kansas City in 40 days is a record that the great Western City should be ashamed of. Stanford hasn't had that many in 40 years.

CHARLIE WHEELER has relayed the suspense of people in general by stating that he is not a candidate for governor.

### POLITICAL.

J. H. McConnell was nominated for Congress by the Peoples' party in the First district.

E. T. Lillard was re-elected warden at Frankfort. Henry Hagerman was elected warden at Eddyville.

The race between Rhea and Helm for the democratic nomination for Congress in the Third district is waxing warm. Helm is developing wonderful strength. It is reported in Frankfort that Candidate McChord, alarmed at the opposition to his renomination for railroad commissioner, will have the committee call the convention off and order a primary.

The Louisiana Senate passed and the governor signed the House bill, which prohibits the use in public schools of histories that fail to give Admiral Schley the credit for victory over Admiral Cervera's fleet.

A half million people greeted President Roosevelt at Pittsburg. He was escorted to the place of speaking by a procession of 3,000 men, while in the evening he was tendered a dinner at the Schenley Hotel.

Representative Dinsmore, of Arkansas, characterizes the letter of Gov. Davis to President Roosevelt, protesting against the appointment of Senator Jones on the Isthmian Canal Commission, as a "piece of impertinence" that may prove a boomerang.

The Times Washington correspondent says that in spite of denials Senator Hanna may be considered a candidate for president or, if ill-health prevents his campaigning, that he will fight to prevent Roosevelt's nomination in the next republican convention.

Senator Deboe waked up long enough to attack the courts of Kentucky, Friday, but his remarks were withheld from the Congressional Record for "revision." Wouldn't it be a picnic to see one of Deboe's speeches in print with none of the kinks taken out?—Cynthia Democrat.

Judge M. C. Saufley, of Stanford, has, in accordance with the expectation of his friends, announced his candidacy for re-election to the circuit judgeship. Judge Saufley has made a splendid record on the bench, and will receive a hearty support throughout the district.—Advocate.

Tammany Hall celebrated the Fourth of July at its Wigwam in New York City with speeches by Bourke Cockran and Justice O'Gorman. Letters of regret were read from Senator Vest, W. J. Bryan and David B. Hill. At the celebration in Philadelphia Gen. Nelson A. Miles delivered an address.

Arrangements have been completed whereby only the most pressing official cares shall disturb the president's vacation at Oyster Bay. Delegates will not be received by Mr. Roosevelt, and much business coming to the hands of the chief executive will be transacted through the departments in Washington.

The chief obstacle in the way of the Vatican's accepting Gov. Taft's proposition regarding the friar lands in the Philippines is the withdrawal of the friars. The religious orders are especially powerful in the Sacred College, and the Vatican would not object if the expulsion were carried out and it had to be recognized only as an accomplished fact. It is believed that the Vatican would welcome a show of force.

Gov. Jeff Davis, of Arkansas, has written a letter to President Roosevelt protesting against the appointment of Senator James K. Jones as a member of the canal commission. Gov. Davis says that Senator Jones has put himself beyond the party line, and that the appointment will not be given as to a democrat without the protest of the democracy of the State. If Senator Jones is appointed as a republican, pure and simple, no objection will be raised, he says.

A Frankfort paper announces John W. Vreeland as a candidate for auditor.

Colson's friends are claiming Clinton, Wayne, Russell, Adair and Cumberland in his race for Congress.

If the Breckinridges and Robertses desired to get rid of W. P. Walton in the newspaper business in Lexington, they should have made life smooth and easy for him. He would have rusted out and retired in disgust of a life of inaction within a year. They did the very opposite and made the conditions exactly suited to his temperament and now he is on top of the whole journalistic push in Lexington. "Let the pretty little lion sleep, boys; he's safest when in slumber."—Somerset Journal.

W. W. HAYS wasn't proprietor of the furniture store in the St. Asaph Hotel block long. His old partner and wife bought him out Saturday afternoon and the firm now is J. L. Beazley & Co. We hope the turn of affairs will not cause Mr. Hays to change his mind about moving to town but will come on and find something else to make a good living at. We need more good people like Mr. Hays and his family. Mr. Beazley is an experienced furniture dealer and undertaker and that he will do well no one will gainsay.

SETTLED.—The mooted question of a bond issue for the erection of a graded school building has been settled and as Bro. Barnes would say, "Praise the Lord." A compromise was effected Saturday and we are satisfied that every man, woman and child in town breathes easier. We are as proud of the settlement of the business as the average boy is of his first boots and are willing to join in singing the good, old "Doxology" or doing almost anything else in reason, so glad are we that there will be no more pulling and hauling and misunderstandings on the subject. Following is the proposition offered by the so-called anti:

C., master of ceremonies for this season, will give a series of Germans during the summer, introducing all the newest and most attractive figures. COPY for the Hustonville fair catalogue (July 30-3 days) has been given us and we hope to have the catalogues of that excellent fair out in the next week. There are 68 rings and the premiums given in each are the most liberal ever offered in Central Kentucky. There is a \$150 premium for the best saddle stallion, mare or gelding and another of a similar amount for the best roadster stallion, mare or gelding.

SOME 40 or more guests gathered at Mrs. Bettie Broadbudd's Sunday to meet Armp Broadbudd and his pretty bride, who had just arrived from Oklahoma. A most excellent dinner was enjoyed and when it is told that Mrs. S. M. Spoonamore had charge of the delicacies of it, none will doubt that it was a feast indeed. A liberal sample of the good things sent us, make us more than willing to testify to the fact that it must have been a feast fit for the gods. Mr. Broadbudd's bride was Miss Clara Sacray, and she is a very beautiful young woman. Her home has been in the far West but she is a graduate of one of the best colleges of St. Louis and besides has had advantages not afforded all young ladies. We congratulate our ex-countyman on winning such a prize and join their many friends in hoping that both he and his bride will always be as happy as they are now. They will spend several weeks visiting his relatives in this and adjoining counties before returning to Oklahoma.

White Bronze is to stone in the monument business what the improved drop-head sewing machine is to the old hand method, or the palace car is to the old stage coach. It is the advanced thought of the age. It is indestructible and will perpetuate the records and resting place of your loved ones. It is very beautiful with a frosted silver appearance. Please hold your order until you can investigate it.

## HOW THE CHINESE GET RAIN

Peculiar Practices in Vogue in the Celestial Kingdom.

It is one of the peculiarities of the Chinese that, while they have developed elaborate philosophies, none of them has led to any confidence in the uniformity of nature. Neither the people nor their rulers have any fixed opinion as to the causes of rainfall. The plan in some provinces when the need of rain is felt is to borrow a god from a neighboring district and petition him for the desired rain. If his answer is satisfactory, he is returned to his home with every mark of honor; otherwise he may be put out in the sun as a hint to wake up and do his duty. A bunch of willow is usually thrust into his hand, as willow is sensitive to moisture.

Another plan in extensive use is the building of special temples in which are wells containing several iron tablets. When there is a scarcity of rain, a messenger starts out with a tablet marked with the date of the journey and the name of the district making the petition. Arriving at another city, he pays a sum of money and is allowed to draw a new tablet from the well, throwing in his own by way of exchange. On the return journey he is supposed to eat only bran and travel at top speed day and night. Sometimes he passes through districts as greatly in need of rain as his own. Then the people in these places waylay him and, temporarily borrowing his tablet, get the rain intended for another place.

Prayers are usually made in the fifth and sixth months when the rainfall is always due, and a limit of ten days is set for their effective operation. Under such conditions rain usually falls during the prescribed time. When the prayers are in progress, the umbrella, among other objects, comes under the ban. In some provinces foreigners have been mobbed for carrying this harmless article at that time.

## DEATH BY ARSENIC.

The Way This Poison Acts Upon the Human System.

When a single dose of arsenic in sufficient quantity to be felt has been taken, colicky pains, bowel disorder and perhaps nausea result. In the course of an hour after a poisonous dose has been taken an intense burning pain is felt in the esophagus and stomach. This spreads to the entire anterior portion of the lower part of the trunk. A sense of constriction at the throat and an acid, metallic taste accompany the pain. Then vomiting and relaxation of the bowels begin. As the case progresses the symptoms increase in intensity. Then comes a thirst that water will not allay, although it apparently increases the stomach disturbance. The victim groans and writhes.

Now he implores the doctor to save him. Then he begs to be killed and put out of pain. The extremities become icy. The pulse is small, feeble and frequent, and the breathing is labored, embarrassed and painful because of abdominal tenderness. The surface of the body becomes dark and of that bluish color that medical men call cyanosed. Violent cramps add their torture, exhaustion becomes collapse, convulsions or coma ensues, and death ends the agony. This torture lasts sometimes from five to twenty hours.

In some cases these symptoms occur, but in a modified form, and the doctor will apparently get the better of the disease. The remission will be but for a day or two. Then the abdomen will swell, and icy coldness will pervade the frame. Shivering will become pronounced trembling, then cramps, convulsions and death.

The Lincoln Oil, Gas & Mineral Co. has about 3,000 acres of land leased in Lincoln county, Ky. The larger portion of this lease is contiguous to the M. S. Baughman farm—a portion in the neighborhood of Maywood and Sugar Grove sections and still another portion skirting Logan's Creek. "One of the surest indications of the probable value of undeveloped oil lands is the result of efforts at development on land adjoining." None of the stock reserved by the incorporators can be issued by them until the entire amount so reserved has been sold, and when sold every dollar arising therefrom will be used in developing the company's holdings. No officer or director draws a salary from the company or will receive any compensation for his time and labor unless by good management the entire stock of the company is rendered valuable by reason of the untiring efforts of the officers and directors. The stock is non-assessable and the private property of the stockholder is not liable for corporate debts. It is incorporated under the laws of the State of Kentucky. Its books are open at all times to its stockholders and they are invited to its office to receive any information concerning the company's affairs. The business is being pushed with all the rapidity and zeal possible that is commensurate with safe business.
